WELCOME TO DOWNHILL DUKE'S

We like to think that Duke had a lot of friends in Copper's avalanche dog rescue program – one of the first in the state of Colorado. Unfortunately, he didn't make the cut as a rescue dog himself. He just knew how to throw a really good party.

With a south-facing patio, enjoy lunch in the afternoon sunshine over shared plates and live music. Come for lunch but stick around for après. Unbuckle your boots and kick back with a lively libation or two and a locally-sourced menu around outdoor heaters and fire pits. Top off your day with more live music that will get you on your feet or perhaps the tables.

Downhill Duke's invites you to bring Fido along. The menu features dog-friendly items and a special patio area where your furry friend can put up their paws after a hard day of romping in the snow.

SHARED PLATES

DUKE'S GUACAMOLE 9

Pueblo chili, charred peaches, onion, lemon, cilantro
